COURSE RATIONALE

Rapid advances in HIV, HBV and HCV disease management require the ongoing attention of healthcare professionals involved in HIV, HBV and HCV medicine. This course will address the implications of new PK/PD information on strategies for clinical management. Information will be presented through a mix of didactic lectures and clinically relevant cases developed by an expert faculty of clinicians and researchers.

TARGET AUDIENCE AND CME CREDITS

The course is designed for healthcare professionals who are actively involved in the medical care of people with HIV and HCV infection.

Provider HealthData Consulting s.r.l. (n.546) has assigned **14 CME credits** according to Italian Health Ministry's criteria. CME credits will only be awarded to Italian participants who attend the entire course. These categories of health professionals are eligible for CME credit assignment: physicians, hospital pharmacists and biologists.
